

CLARKSBURG WINE GROWERS & VINTNERS ASSOCIATION

The Association

The Clarksburg Wine Growers & Vintners Association is an organization of wine grape growers from the Clarksburg appellation. It was formed in 1987 by local growers to promote the high-quality wine grapes of this premier growing region. CWGVA is also dedicated to providing continuing education for our growers on evolving viticultural practices.

The majority of our grower members—some from farm families located in the area for generations—are individuals directly involved in their vineyards and have a personal commitment to produce the best grapes possible. CWGVA growers directly work with the wineries to achieve the high-quality grapes they demand.

There are over 7,000 acres planted in wine grapes grown by our grower members. We grow over 25 varieties of grapes, the most popular being Chardonnay, Chenin Blanc, Merlot, Petite Sirah, and Sauvignon Blanc. Our growers sell wine grapes to over 90 wineries.

Our associate membership is another important part of CWGVA. Industry-related businesses, both local and out of the area, that want to support our growers and CWGVA's efforts, join us as associate members. The Clarksburg Wine Growers & Vintners Association has 34 grower members and 29 associate members.

The Appellation

Surrounded by the cooling waterways of the Sacramento River Delta is the rich farmland of the Clarksburg appellation in Crush District 17. Weighted drawbridges and swing bridges give access to the lush lands bordered by Interstate 5 on the east and the Sacramento Deep Water Channel on the west. Small towns dot the riverside and wine grape vineyards nestle among the farmlands of row, field and orchard crops. The northern appellation border parallels the town of Freeport, while the southern border runs along Twin Cities Road, extending to the Sacramento Deep Water Channel. With proximity to Interstate 5 and Interstate 80 the appellation grapes never have long to travel.
